Dave,

You will need to provide the Scope of Work to the Tribal Natural Resource Department for approval to complete the work included in the WDNR cost approval.

Kristen Hanson

Hi Dave:

This is going out in the mail today. Please confirm the schedule with Cascade so we can get this work done during the second week in July. Thanks!

We are committed to service excellence.

Visit our survey at http://dnr.wi.gov/customersurvey to evaluate how I did.

FYI – just took a call from Cascade and they alerted me that their schedule is filling up and they we wondering if the work we had discussed would be a go or not. If we can get a response by end of day today it would be much appreciated.

Thank you,

David N. Larsen P.G

Hi Dave:

I just talked to John R. and he said that for amounts over $10,000, Tim Panzer also has to sign off on it. Mr. Panzer is unavailable this afternoon so this will have to wait until tomorrow morning. John added that, since this is a fairly significant cost, a third quote would help with the

approval. Perhaps Dakota Technologies would be a worthwhile look:

Chris, per our discussions today:

- MIP SOW (Cascade option without LIF?) seems to be the best option.

o 2 Estimates provided in attached variance request

o REI costs for MIP SOW also included as variance request

- Well sampling (low flow variance), analyze for PVOC/N in all wells except motel. N/A parameters in all wells (17) and lead in MW20 nest and MW21 (3)

- Containerize and dispose of all purge water

- Update report

- Access agreement for old restaurant property

Please let me know if you have any questions or concerns. I may have missed something and I want to make sure we are all in agreement with proposed work on the accelerated schedule for this project.

Thank you,

David N. Larsen P.G
